

PAWAN BHENGRA

FRONTEND ENGINEER

Surat, Gujarat | +91 9054002824 | pawanbhengra.work@gmail.com

PROFESSIONAL SUMMARY

Frontend Engineer with 2 years of professional experience building web products across client and product environments. Strong in **React.js, Next.js and TypeScript**, with hands-on full-stack experience using Node.js, Express, PostgreSQL, REST and GraphQL, including authentication, CRUD workflows and third-party integrations. Uses AI coding agents to accelerate requirement breakdown, implementation, debugging, refactoring and documentation while retaining ownership of engineering decisions.

CORE TECHNICAL SKILLS

Frontend Architecture: React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Ant Design, shadcn/ui, Responsive Design, State Management.

UI & Integration: REST APIs, GraphQL, API Integration, Forms & Validation, Authentication Flows, Third-Party APIs, Embeddable Widgets.

Backend & API Design: Node.js, Express.js, RESTful APIs, GraphQL, Authentication Flows, Request Validation.

AI & Modern Engineering: AI coding agents, contextual prompting, repository-aware development, AI-assisted code generation and review, debugging, refactoring, requirement decomposition, documentation assistance, AI-augmented frontend workflows.

Tools & Practices: Git, GitHub/GitLab, Bitbucket, Figma, Code Review, Debugging, Team Collaboration.

PROFESSIONAL EXPERIENCE

Logicwind

JavaScript Engineer | June 2023 – November 2025

- Developed and delivered frontend features using React.js/TypeScript and Next.js/TypeScript across client and product projects within 3-7 member teams.
- Built reusable UI components and workflows with Tailwind CSS and Ant Design, supporting responsive and cross-browser experiences.
- Integrated third-party platform services including Meta APIs (Facebook/WhatsApp Business) and payment workflows using Paddle.
- Worked across frontend and backend boundaries with Node.js, Express, REST APIs, GraphQL and PostgreSQL to support end-to-end feature delivery.
- Used AI coding tools for task decomposition, implementation exploration, debugging, refactoring and documentation while independently validating the final output

Full Stack Developer Intern | December 2022 – May 2023

- Built web application features with React.js, Node.js, Express and PostgreSQL during a 6-month full-stack internship.
- Collaborated on codebase maintenance, managed source control utilizing Git-based environments, and resolved critical production bugs across frontend and backend tiers.

FEATURED PROJECTS

Instagram Widget | *React.js, Ant Design, GraphQL, Meta APIs*

- Integrated Meta APIs to generate embeddable scripts for displaying social content on external websites.

WhatsApp & Meta Platform Admin Suites | *React.js, Ant Design, GraphQL, Meta APIs*

- Developed an admin dashboard for bulk messaging, campaign performance tracking and admin-user management.

Game Operations Admin Portal | *React.js, Ant Design, GraphQL*

- Designed advanced administrative workflows for gaming platforms, incorporating secure currency controls, configuration managers, and complex financial revenue analytics charts.

EDUCATION

B. Tech in Computer Engineering | 2019 – 2023

Uka Tarsadia University, Bardoli, Gujarat, India
